Background

CR 13180 addresses an incorrect current process for adjusting ESRD ETC model payments. The ETC Model was finalized by the [final rule](#), known as the Specialty Care Models final rule. The ETC model has 2 payment adjustments:

- HDP: These are positive adjustments to on home dialysis and home dialysis-related claims submitted by ETC Participants with dates of service (DOS) of January 1, 2021 - December 31, 2023. We implemented these adjustments for ETC Participants in January 2021.

- PPA: These are positive or negative payment adjustments on all dialysis and dialysis-related claims with a DOS of July 1, 2022 - June 30, 2027. The adjustment depends on ETC Participants who are ESRD facilities and managing clinicians' performance on home dialysis and transplant rates as defined by the final rule. The adjustments made to the ESRD prospective payment system apply to claims containing:
 - Type of Bill 072x
 - DOS of July 1, 2022, or later
 - DEMO-CD-94-ETC-FLAG of P (PPA only) or B (HDPa and PPA)
 - Demo code of 94
 - MCP claims on claim lines with CPT codes 90957-90962 and 90965-90966
