# SUBJECT: ESRD Treatment Choices (ETC) Model Performance Payment Adjustment (PPA) - Facility Component (Implementation CR)

**I. SUMMARY OF CHANGES:** The End-Stage Renal Disease (ESRD) Treatment Choices (ETC) Model is a mandatory model (demo code: 94), for which about a third of the nation's dialysis facilities will be required to participate based on zip code. The model started on January 1, 2021, and ends on June 30, 2027. The model includes, two payment adjustments, the Home Dialysis Payment Adjustment (HDPA) and the Performance Payment Adjustment (PPA), which apply to both the participating ESRD facilities and clinicians managing Medicare fee-for-service beneficiaries with ESRD, referred to as Managing Clinicians. The HDPA is an upward adjustment in home-dialysis related claims and is being implemented through CR 12038. The PPA is an upward and downward payment adjustment made on all dialysis and dialysis-related claims between July 1, 2022 and June 30, 2027. The PPA applies to both participating ESRD facilities and Managing Clinicians and CR 12404 is implementing the PPA for Managing Clinicians, who are paid through the ESRD Monthly Capitation Payment (MCP). Whereas, this CR implements the policy on how to apply the PPA for ESRD Facilities, who are paid through the ESRD Prospective Payment System (PPS).

**EFFECTIVE DATE:** April 1, 2022 - Begin development FISS; July 1, 2022 - Continue development, testing and implementation FISS; Full implementation of MCS; Full implementation of CWF \**Unless otherwise specified, the effective date is the date of service.* IMPLEMENTATION DATE: April 4, 2022 - Begin development FISS; July 5, 2022 - Continue development, testing and implementation FISS. Full implementation of MCS and CWF

#### I. GENERAL INFORMATION

**A. Background:** The End-Stage Renal Disease (ESRD) Treatment Choices (ETC) Model is a mandatory model (demo code: 94) for which about a third of the nation's dialysis facilities will be required to participate based on zip codes falling within selected geographic areas (which are 30 percent of all Hospital Referral Regions (HRRs) plus certain HRRs with Maryland ZIP codes as selected by CMS). The model started on January 1, 2021 and ends on June 30, 2027. The model includes two payment adjustments, the Home Dialysis Payment Adjustment (HDPA) and the Performance Payment Adjustment (PPA), which apply to both the participating ESRD facilities and clinicians managing Medicare Fee-for-Service (FFS) beneficiaries with ESRD, referred to as Managing Clinicians. This CR primarily focuses on the Facility PPA.

**B. Policy:** The PPA is an upward or downward payment adjustment made on all dialysis and dialysisrelated claims between July 1, 2022 and June 30, 2027. It is dependent on participants' performance on home dialysis rates and transplant rates and applies to participating ESRD facilities who are paid through the ESRD Prospective Payment System (PPS).
