**Transmittal 12567 issued April 05, 2024, is being rescinded and replaced by Transmittal 12643, dated May 15, 2024, to add Business Requirement (BR) 13392.99 to provide additional instruction to FISS for processing the MCP e-Consult code (G9037) for FQHCs, and to edit the note in BR 13392.14 to confirm that adjustments due to the beneficiary and provider combination being active for the claim's date of service shall be completed via a TDL issued to the MACS. In BRs 13392.12.1.1 and 12.2.1, error message language has been added for contractors to reject detail lines for the ACM code (G9038). BR 13392.45 has been deleted. CVM has been added as an impacted system to BRs 13392.18 and 19. The first production file deadline in BR 13392.2.6 has been changed from on or before June 10, 2024 to on or before June 25, 2024. All other information remains the same.**

**SUBJECT: Making Care Primary (MCP) Model Implementation**

**I. SUMMARY OF CHANGES:** The Innovation Center has secured approval for the Making Care Primary (MCP) model, a demonstration testing alternative payment models and support to primary care organizations. MCP is designed to test whether implementing new payment methodology and care delivery goals can reduce program expenditures and improve outcomes on key measures.

The purpose of this Change Request (CR) is to implement all of the tenants of the Making Care Primary (MCP) model as it relates to claims-based payments. This includes:

- The implementation of two new Physician Fee Schedule (PFS) and Prospective Payment System (PPS) codes, called the Ambulatory Care Management code (ACM) and the MCP e-Consult Code (MEC)
- Appending the demonstration code for MCP based on the date-of-service (DOS), provider and beneficiary files (which will identify model participant and model beneficiaries), and CPT/HCPCS code
- Reducing codes found in Appendix A by 50% of the normally paid rate for participants in Track 2
- Reducing codes found in Appendix B by 100% of the normally paid rate for participants in Track 3
- Deny claims found in Appendix C for all participants across all tracks, as they are paid through other model mechanisms not utilizing the Medicare FFS Shared Systems

**EFFECTIVE DATE: July 1, 2024**

*\*Unless otherwise specified, the effective date is the date of service.*

**IMPLEMENTATION DATE: April 1, 2024 - Analysis, Design and Coding; July 1, 2024 - Complete Coding, Testing, and Implementation; October 7, 2024 - Implementation of BR 13392.12.4 for CWF only.**

**III. FUNDING:**

**For Medicare Administrative Contractors (MACs):**

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

## **I. GENERAL INFORMATION**

**A. Background:** Section 1115A of the Social Security Act (the Act) (added by Section 3021 of the Affordable Care Act) (42 U.S.C. 1315a) establishes the Innovation Center to test innovative payment and service delivery models that have the potential to lower Medicare, Medicaid, and Children's Health Insurance Program (CHIP) spending while maintaining or improving the quality of beneficiaries' care.

Under Section 1115A(d)(1) of the Act, the Secretary of Health and Human Services may waive such requirements of Title XI and XVIII and of sections 1902(a)(1), 1902(a)(13), 1903(m)(2)(A)(iii) and certain provisions of section 1934 of the Act as may be necessary solely for purposes of carrying out section 1115A with respect to testing models described in section 1115A(b).

For this model and consistent with the authority under section 1115A(d)(1), the Secretary may consider issuing waivers of certain fraud and abuse provisions in Sections 1128A, 1128B, and 1877 of the Act. No fraud or abuse waivers are being issued in this document; fraud and abuse waivers, if any, would be set forth in separately issued documentation. Any such waiver would apply solely to MCP and could differ in scope or design from waivers granted for other programs or models. Thus, participants must comply with all applicable laws and regulations, except as explicitly provided in any such separately documented waiver issued pursuant to Section 1115A(d)(1) specifically for MCP.

In addition to or in lieu of a waiver of certain fraud and abuse provisions in sections 1128A and 1128B of the Act, CMS has determined that the anti-kickback statute safe harbor for CMS-sponsored model arrangements and CMS-sponsored model patient incentives (42 CFR § 1001.952(ii)) will be available to protect remuneration exchanged pursuant to certain financial arrangements or patient incentives permitted under the MCP participation documentation.

The Innovation Center has secured approval for the Making Care Primary (MCP) model, a demonstration testing alternative payment models and support to primary care participants. MCP is designed to test whether implementing new payment methodology and care delivery goals can reduce program expenditures and

improve outcomes on key measures.

MCP participants will begin operations under the model starting July 1, 2024. The model will continue for 10.5 years, and conclude on December 31, 2034. New participants and providers may be added and removed throughout the model and CMS will provide updated files of participants and providers as well as attributed beneficiaries on a monthly basis. Participating providers will continue to submit claims using normal fee-for-service (FFS) processing. In addition to claims-based payments, participating providers may receive enhanced service payments, prospective primary care payments, upfront infrastructure payments and performance incentive payments. These payments shall be processed separate from the claims system and are not addressed in this CR.

The Ambulatory Care Management (ACM) code does not apply to MCP participants organizations, but rather to specialists that choose to partner with them. As described in the business requirements, the ACM code is for specialty care partners, which are not delineated in our provider files. There must be an attributed beneficiary, valid date of service, and valid specialty type as described in Appendix D for an ACM code to be paid.

This model will have one demonstration code applied to claims processed under any track in the model, as described in the business requirements below. However, some requirements will only apply to specific tracks. If true, the specific track the requirement applies to will be named. If not otherwise stated, the requirement applies to all tracks. Tracks will be delineated in the provider and beneficiary attribution files.

**B. Policy:** Under MCP, the Innovation Center will engage with primary care organizations that have a majority of physical locations within our designated regions. MCP participants will change tracks throughout the life of the model. This will not happen more than once annually.

MCP participants shall continue to bill HCPCS and CPT codes for all patients as they normally do under the traditional Medicare program. The model should have no impact to deductibles or coinsurance required by the beneficiary. No new claims-based payments should be made while the beneficiary is still meeting their deductible, and the 50% payment rate for T2 should not be added unless normal FFS payment would have been added.

The beneficiary attribution process will be conducted outside of the claims system although a list of beneficiaries attributed to the model shall be provided to contractors for the purposes of claims adjudication every month. Patient coinsurance and deductible will, however, be calculated based on traditional fee for service processing for the original code that the provider billed at the allowed amount. Occasionally, claims are incorrectly processed in models, and MCP participating providers and beneficiaries may retroactively be added or removed. In this case, there will be a retroactive effective date. Systems should go back and reprocess the claim, adding or removing payments as necessary based on the track.

Separate from these claims-based payments, MCP participating providers may receive population-based per beneficiary per month payments for attributed beneficiaries as well as performance-based payments. These payments shall be processed outside the fee for service claims processing system and are not addressed in this CR.

MCP participating providers are prohibited from billing HCPCS and CPT Codes listed in Appendix C on any of their attributed beneficiaries. CMS has interpreted Appendix C codes duplicative of the non-claims-based payments participants are receiving under the MCP model.

Except as otherwise specified, MCP claims shall be subject to all other adjustments (e.g., sequestration) and policies applicable to other fee for service claims.

For the ACM code, shared systems should check that:

- *Claim is for an MCP-attributed beneficiary that is attributed to a provider in Track 3*
- *Claim is an appropriate DOS for beneficiary attribution dates*
- *Claim is not billed by institutional provider/FQHC (reject if so)*
- *Rendering Provider is valid specialty type (see Appendix D for specialty types) (not applicable to FQHCs)*
- *Claim has not already been billed three times by the same specialist type for the same beneficiary in the past 12 months*
  - *First come (i.e., first billed), first-serve basis for this, regardless of claim DOS*

For MCP participants billing codes, systems should take action based on Track and participant type.

Criteria necessary for claims edits for Health Centers:

- CCN is included in provider file
- Beneficiary is included in the beneficiary alignment file, identified by HICN or MBI
- MCP office E/M codes are on PPS claim (see Appendix A and Appendix B, depending on participant track)
- OR, codes are on list of services to deny (see Appendix C)
- Otherwise, claim will process as normal

Criteria necessary for claims edits for non-Health Centers:

- TIN and NPI are both included in provider alignment file
  - Clinician NPI (Type 1), not organizational NPI (Type 2) is CMS 1500 field 24j Rendering Provider ID #
  - Clinician TIN is in CMS 1500 Field 25 Federal Tax ID #
- Beneficiary is included in the beneficiary alignment file, identified by HICN or MBI
- MCP office visit E/M codes are on Part B claim (see Appendix A and Appendix B, depending on participant track)
- OR, codes are on list of services to deny (see Appendix C)
- Otherwise, claim will process as normal

## **II. BUSINESS REQUIREMENTS TABLE**

*"Shall" denotes a mandatory requirement, and "should" denotes an optional requirement.*

| Number      | Requirement   | Responsibility |   |             |                            |                                  |             |             |             |                            |  |  |
|-------------|---|----------------|---|-------------|----------------------------|----------------------------------|-------------|-------------|-------------|----------------------------|--|--|
|             |   | A/B<br>MAC     |   |             | D<br>M<br>E<br>M<br>A<br>C | Shared-<br>System<br>Maintainers |             |             |             | Other                      |  |  |
|             |   | A              | B | H<br>H<br>H |                            | F<br>I<br>S<br>S                 | M<br>C<br>S | V<br>M<br>S | C<br>W<br>F |                            |  |  |
| 13392.1     | The contractors shall prepare their systems to process Making Care Primary (MCP) claims with dates of service on or after July 1, 2024.   | X              | X |             |                            | X                                | X           |             | X           | CMS, CVM, HIGLAS, NCH, VDC |  |  |
| 13392.1.1   | The contractors shall use Demonstration Code A5 to identify MCP claims (Benefit Enhancement Indicator is L (indicates Track 1), M (indicates Track 2), or N (indicates Track 3)).   |                |   |             |                            | X                                | X           |             | X           | CMS, HIGLAS, NCH, VDC      |  |  |
| 13392.1.2   | The contractors shall ensure that the MSP (Medicare Secondary Payer) Claims are exempt from the MCP demonstration code A5.  |                |   |             |                            | X                                | X           |             | X           |                            |  |  |
| 13392.1.2.1 | CWF shall modify existing edit 524B for Part B and Outpatient Claim types, for new demo code 'A5'.  |                |   |             |                            |                                  |             |             | X           |                            |  |  |
| 13392.2     | CMS shall provide MCP contractors with the MCP provider participant files via the Cloud Storage and Retrieval System (CSRS). File format will be CSV and layout will conform to the attached ICD.   |                |   |             |                            |                                  | X           |             |             | CMS, VDC                   |  |  |
| 13392.2.1   | MCS shall receive a provider participant test file from CMS via CSRS on or about March 11th, 2024 to validate the file layout.  |                |   |             |                            |                                  | X           |             |             |                            |  |  |
| 13392.2.2   | Contractors shall accept the CSV files from the CSRS and shall process the updated Provider and Beneficiary Alignment files as full replacement files.  |                |   |             |                            |                                  | X           |             | X           | CMS, VDC                   |  |  |
| 13392.2.3   | The contractors shall perform validation edits against the new Provider Files to ensure file contains all information needed for the MCP project.   |                |   |             |                            |                                  | X           |             |             |                            |  |  |
| 13392.2.4   | The contractors shall provide a response file to CMS via the CSRS with accepted and rejected records.<br><br>CMS shall correct returned invalid MCP Provider Participant files or file records and return the corrected files or file records to MCS. |                |   |             |                            |                                  | X           |             |             | CMS                        |  |  |
| 13392.2.5   | MCS shall send the Fiscal Intermediary Shared System (FISS) the initial Provider Alignment file   |                |   |             |                            | X                                | X           |             |             |                            |  |  |

| Number          | Requirement   | Responsibility |   |             |                            |                                  |             |             |             | Other |
|-----------------|---|----------------|---|-------------|----------------------------|----------------------------------|-------------|-------------|-------------|-------|

### VI. FUNDING

**Section A: For Medicare Administrative Contractors (MACs):**

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

**ATTACHMENTS: 4**

Appendix A – Accepted HCPCs for Track 1 and 2

(codes to be reduced by 50% for Track 2 participants)

(no reduction for Track 1 participants, with Track 1 claims processed as normal FFS)
