CENTER FOR MEDICARE

DATE: February 10, 2020

TO: All Current and Prospective Medicare Advantage, Prescription Drug Plan, Section 1876 Cost, and Demonstration Organizations

FROM: Amy Larrick Chavez-Valdez, Director
Medicare Drug Benefit and C & D Data Group

SUBJECT: Health Plan Management System Application Programming Interface Testing Opportunity - Responses Due by February 19, 2020

The Center for Medicare (CM) is interested in providing plan partners and their contracted third party vendors and consultants with an application programming interface (API) option for two Medicare Plan Finder (MPF) areas of the Health Plan Management System (HPMS):

- Part D Pricing File Submission (PDPFS) Module
- Online Enrollment Center (OEC) Management Module

CM is reaching out to Medicare Advantage (MA), Prescription Drug Plan (PDP), Section 1876 Cost, and Demonstration organizations to:

- Determine the level of interest in using an API for communicating with either PDPFS or OEC; and
- Identify organizations that can actively participate in upcoming pilot efforts.

Third party vendors and consultants are also encouraged to participate in this effort, where they are sponsored by a contracted MA, PDP, Section 1876 Cost, or demonstration organization.

Interested parties must submit their information via the following website:

<https://cms.gov.wufoo.com/forms/hpms-api-testing-opportunity/>

Responses are due to CM no later than **COB Wednesday, February 19, 2020.**

Thank you for your interest in this modernization effort.
