

Know Your Health Care Rights!

- 1 Your doctor, health plan, hospital, or other medical provider may **not** discriminate against you based on who you are.
- 2 You **cannot** be denied health care coverage or treatment due to your race, color, national origin, sex, age, or disability.
- 3 You have the right to language translation and interpretation services that are **free, accurate, timely, and that protect your privacy.**
- 4 Your medical provider must provide free interpretation; you are **not** required to bring your own interpreter, pay for an interpreter, or rely on a child or family member.
- 5 If you have a disability, you have the right to **accessible health care equipment** such as scales, exam tables, and mammography machines. Telehealth, websites, and mobile apps must also be made accessible to you.
- 6 Your doctor, other health care providers, and plan **must** take appropriate steps to accommodate your speech, hearing, or vision disability, if any. Including by providing things like qualified interpreters or readers, Braille, or large print materials that are **free, accurate, timely, and protect your privacy.**
- 7 Your doctor, other health care providers and health plan **cannot** discriminate against you using Artificial Intelligence, clinical algorithms, flowcharts, or other tools that support patient care decisions.
- 8 You and your health care provider both have the right to **raise conscience objections.**
- 9 Your doctor, other health care provider or plan **must** remind you of these rights through provided and posted notices.

If you believe you have been discriminated against you **can** file a complaint with HHS Office for Civil Rights at: <https://ocrportal.hhs.gov>. You may also be able to submit a complaint directly to your health care provider or insurer.
